OBJECTION
To Planning Permit Application Number 20080980, Buller Stirling Link Road

Dear Mr Howells,

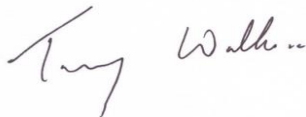

Bushwalking Victoria formally and strongly objects to Planning Permit Application number 20080980, Buller Stirling Link Road.

Bushwalking Victoria can find no record of our having been invited to comment on the proposal, and believes that no such invitation was extended to us. We profoundly regret this, as the area where the road is proposed to be constructed is a popular bushwalking locality, and we have a deep interest in what could happen to it under the provisions of your Planning Permit Application.

We have, however, become aware of the matter through other channels, and have consulted a number of relevant documents, including the Victorian National Parks Association's 14 October 2013 objection to your planning permit application.

We find the VNPA objection thoroughly researched and soundly reasoned, and we support and endorse its content. The bases for our objection are accordingly the same as those appearing in the VNPA objection, and we desire that you record our objection accordingly.

Yours sincerely,

Tony Walker
President
Bushwalking Victoria
