

New Mt Bogong Map

Rooftop Maps has recently released a new Mt Bogong map which is suitable for serious walkers who wish to explore Victoria's highest mountain. Covering a section of Rooftop's popular Bright – Bogong – Hotham Forest Activities Map, this new map boasts a larger scale (1:30,000) which provides clear contours and the inclusion of lots of recently-checked detail. On the reverse of the sheet is an updated map of Mt Feathertop, Victoria's second highest mountain, also at 1:30,000.

Both maps contain lots of useful information and valuable track notations for those exploring the region. Printing is on tough waterproof 'paper'. This map bundle is available from specialist map retailers and bushwalking shops, RRP, \$13.95. Unfortunately, it is not available in electronic form to use with GPS's or smartphones.
